2020 GHBM Users' Workshop

This will be the 4th GHBM Users' Workshop hosted by Elemance. In past years, this one-day workshop has been a successful collaboration to expand knowledge and foster communications between GHBM users, developers, and members. The 2020 GHBM Users' Workshop will highlight recent research and development efforts involving the Global Human Body Models Consortium (GHBM) family of virtual human models.

Topics of interest include:

- Development of metrics or risk functions for human models
- Investigation and optimization of potential safety countermeasures
- Validation studies
- Occupant safety in alternative seating configurations
- Pedestrian safety assessments
- Applying the model to research topics in sports, military, healthcare and/or automotive applications

Previous Year Participants

Sponsorship Opportunities

All sponsorship packages include:

- Possibility to include promotional material in workshop bags.
